

## Free Online Success Workshop: Dream and Write Your Future!

**A better community begins with me and you.** Many of us don't like the idea of crime in the community, youngsters killing each other, drug dealing, and general apathy, etc. Youngsters are influenced by what they see and experience in their environment that may be negative. They may not be taught to have a positive vision and therefore, do not deliberately use their power to create their destiny.

**Businesses and individuals** can do something about the negative influences in the communities if only we will, and the simplicity of what we can do should not be overlooked or dismissed! Every business can put a positive message on the back of a business card! Also, simply share, promote, and/or sponsor this free success workshop as much as possible and keep reminding ourselves and our youngsters of the "**Success Steps That Never Fail!**" which can be memorized as follows:

*What do you want to Be, Do, and Have?  
Write it, Affirm it with Enthusiasm,  
and Visualize it Every Day!  
LOVE your Vision, have FAITH in it,  
and give THANKS!*

There is something to be said about having participants practice focusing on their inner power when participating in any activity. Therefore, the following forms the basis of a simple workshop module that can be a part of any workshop or used alone:

1. Help the participants memorize the "Success Steps That Never Fail!"
2. Read and discuss "What is Your Dream for This New Age?"
3. Have the participants perform the exercise "Write Your Future in Three Easy Steps!"

Workshop sponsored by:

**You get more of what you want by helping enough people get more of what they want.**

The workshop is designed to inspire individuals to tap the higher dimension of themselves and to remind ourselves and others that we have the power to create our own visions to achieve our desires for good which can include increasing health, wealth, love, success, and happiness. If you feel the workshop has value to inspire others to have a dream or vision for success, please share this web page ([SuccessStepsThatNeverFail.com](http://SuccessStepsThatNeverFail.com)) with children, youths, and adults.

## What is Your Dream for This New Age?

**Message for children, youths, and adults.** As Ministers of Inspiration, it is our dream of building a network of like-minded people who are concerned with encouraging children and youths to exploit their natural gifts and talents. In other words, help them rise to the greater dimension of themselves. We are all free to choose and build the dreams and create the visions of our desires to include increasing health, wealth, love, success, and happiness. Dreams or visions we choose to create, inspire the actions it takes to fulfill the dreams. There is a song in the play and movie called South Pacific, with the words, "You gotta have a dream, if you don't have a dream, how ya gonna make a dream come true?" What is your dream for this new age?

**Ask yourself,** "What is my dream?" When thinking about the technical aspects of dreaming, anything we give our attention to for long periods of time, can be called dreaming or "day dreaming." It is the living color vision that you hold in your imagination. It is your personal power that can attract all the good you desire. We are always using this power but it may not be as focused and deliberate as we would like.

It is a great opportunity to provide assistance in communicating the dream to those who might join with us in performing the following exercise. We ask that all who read these words join with us in thought for the blessing of yourselves, America, and the whole world and dream now by contemplating the following simple questions:

What can happen when we write down what we want to do, what we want to be, and what we want to have? What if we frequently read what we wrote and imagined in living color, doing what we want to do, being what we want to be, and having what we want to have? Such a dream cannot be denied as long as the dream is there. Let's do it now for every moment is a new age and the time for dreaming is always now!

**The vision manifests in outer form** - See ourselves enjoying riches of peace, power, prosperity, beauty, joy, and all that is good. Anything else can be replaced with the chosen dream of riches. See ourselves doing - Taking a trip to an interesting place, dining at fine restaurants, dressing as we like with fine clothes, driving our favorite car, or doing whatever we like to do. See ourselves having - We want to have good relationships; we want to have relationships with those who are good for us

and whom we are good for. We desire to help others get more of what they want and less of what they don't want; and, this helps us get more of what we want and less of what we don't want.

We want to build the best relationship we can have to attract what we desire that can involve persons, places, things, situations, and relationships. In order to experience more good, we want to help others experience more good. Good relationships start with good communication. Although intelligence cannot be seen, intelligence responds to intelligence and it is through intelligence that communication takes place. The best relationship that we can have is with the Supreme Intelligence.

**Supreme Intelligence** that creates cannot be seen, and knows Itself to be in each one of us. To the extent we give attention to It while dreaming, what we want to do, what we want to be, and what we want to have, It responds to make the dream come true. This means that it is the best relationship we can have to attract what we desire including persons, places, things, situations, and other relationships. Supreme Intelligence fulfills the dream through its Formless Intelligence when we dare to dream the dreams we choose. Supreme Intelligence doesn't care what we call It, for It operates the same when you give attention to It.

Mr. Wallace D. Wattles, author of *The Science of Getting Rich* writes: "THERE is a thinking stuff from which all things are made, and which, in its original state, permeates, penetrates, and fills the interspaces of the universe.

A thought in this substance produces the thing that is imaged by the thought.

Man can form things in his thought, and by impressing his thought upon formless substance can cause the thing he thinks about to be created.

In order to do this, man must pass from the competitive to the creative mind; otherwise he cannot be in harmony with the Formless Intelligence, which is always creative and never competitive in spirit."

**Creative Mind** - *The Science of Getting Rich* implies that the mind is naturally creative because it is created by that Supreme Intelligence part of us that knows Itself to be each one of us. It allows us to have any dream we desire and It also knows how to fulfill the dreams for the dreamer. When we take the easy and simple steps of writing down what we want to be, what we want to do, and what we want to have, the dream experience begins. Give thanks to Supreme Intelligence and It directs the Formless Intelligence; there is no competition as long as the dream is faithfully maintained.

The idea within an apple seed when planted, produces an apple tree just as the idea within the dreamer produces the outer form of experiences. The Formless Intelligence inspires us to know what we need to know and when we need to know what to do to manifest the dream of riches.

It is written that King Solomon (known for his great riches) of the ancient kingdom of Jerusalem said, "Where there is no vision, the people perish." A vision uses the imagination and can be called a dream. A vision is the formation of a mental image of something that is not perceived as real and is not present to the senses. The image is in the mind of the one with the vision, or the dreamer. The dream is manifested in outer form from the channels opened by the Supreme Intelligence through Its Formless Intelligence.

**Create and feel your Vision** - We create and maintain our vision because it impresses the Formless Intelligence to work in our favor to experience the riches that life has to offer for the good of all concerned. It knows how to do this without our help, but when we align ourselves with its nature of all good, we experience the riches that manifests from the dream. All that comes into form is first formed in the mind. Create and feel your vision.

Our dream is that all who read these words are prospered and blessed. Create the vision for yourself, send love, and keep faith in the vision. Think of us when you do, and give thanks to the

Supreme Intelligence. We give thanks to benefit from your energy that manifests the dream in the Formless Intelligence, and the energy that benefits you will be multiplied and self-evident with desires fulfilled. What is Your Dream for the New Age? Write what you want to be, do, and have next. Continue to Write Your Future in Three Easy Steps.

## **Write Your Future in Three Easy Steps!**

**Exercise for children, youths, and adults.** Simplicity is often overlooked when it comes to achieving what one desires in life. That part of the human mind that enables thought is Spirit or a Supreme Intelligence that responds to intelligence. Referred to as the Divine Presence in this writing, presented are three easy steps for attracting desires via Divine Presence. Use the three steps every day to get the desired results (test it for at least 21 days).

### **1. Acknowledge Oneness with Divine Presence**

I, (name), recognize that there is One Divine Power, that is All Knowing, and Everywhere Present. It is the One Creative Action in the Universe, and One Universal Spirit also known as Divine Presence.

I am one with this Divine Presence knowing that It knows Itself to be me and I am the individualized expression of this Divine Presence. All that the Divine Presence is, I am. I accept that my word is It's Law and operates according to It's Law. I express the good that I desire as "Spiritual Ideas" and I accept the ideas as manifesting in my life now as I speak the following words:

### **2. Write and Speak Desires with Enthusiasm**

I desire to Be - A Masterful Minister of Inspiration (change or modify as desired).

I desire to (Do) - Help myself and others tap the greater dimension of ourselves to attract more of what we want and less of what we don't want for the good of all concerned (change or modify as desired).

I desire to Have - Increasing wisdom, knowledge, and understanding with perfect health, youth, and beauty; increasing wealth, unconditional love, unlimited success, and happy relationships (change or modify as desired).

### **3. Visualize, Send LOVE, and Give Thanks**

Each day and as much as possible, I visualize and feel myself joyfully being, doing, and having my desires as happening now and I am all I desire. I have faith in my vision and I LOVE my vision.

I deny any fear, loss, lack or limitation operating within my conscious or subconscious mind. I release any blockage that would prevent my full acceptance of my good. I release my words in full faith to the Divine Presence and Its Law of Mind does the work.

I give thanks, it is done, and so it is.
